

The mission of Globus Relief is to improve the delivery of healthcare worldwide by gathering, processing and distributing surplus medical and health supplies to charities at home and abroad.

## MISSION

Every day, tens of thousands of children throughout the world die from readily preventable and treatable illnesses. Preventable health problems like diarrhea, malnutrition, childbirth complications, wound infections, and disease also claim the lives of thousands of adults every day. These people die simply because they lack the resources and access to basic healthcare required to meet minimum health and nutritional needs to sustain life.

There are hundreds of organizations – medical clinics, relief agencies, food banks, aging services groups, orphanages, schools, etc. Globus Relief aims to support these charitable organizations that directly serve these individuals in need.

We are a medical resource humanitarian organization. We are committed to partnering with other charities, corporations and governments working to improve the delivery of healthcare across the world.

We accomplish the improvement of health care through the following five key deliverables:

Assessment Consulting Acquiring, Packaging and Distributing (APD) Providing Bio-Tech Solutions Training

## About Globus Relief

Globus Relief was founded in 1996. Since our founding, Globus Relief has distributed over \$1 billion (fair market value) of supplies to more than 800 charities at work in over 140 countries. Twenty full-time employees oversee the work of gathering, processing, and distributing humanitarian supplies in our 100,000-s.f. warehouse in Salt Lake City, Utah.
